

## LET'S LAUNCH TOGETHER - LAUNCH DESIGN ASSETS

- Before anything, I've put out my planned content for the week!
- Planned out my workbooks \*optional!
- Created Signpost Schedule
- Created registration page and thank you page
- Send out a broadcast email to your audience - what do they need to hear right now?
- Created an online calendar (using addevent.com for example!)

## BONUS TASKS

- Created a welcome video for my thank you page when people register for the event
- Reached out to someone I know to do an audience swap (e.g you both do something for each other's audience with the aim of growing your reach)
